Hit Done to save it.

FAQ:

1) I cannot connect to camera.

Please double check your settings.

Server Info:

Name: Demo

Address: 72.67.113.35

Port: 9001

User Info:

User ID: admin

Password: 111111

2) My settings are correct, but I still cannot see the live image.

Please make sure you are connected to the internet. If you are connected with 3G, please check the signal strength.

3) I connect to the demo site, but the refreshing rate is slow.

This is due to your internet connection speed. Wifi connection is highly recommended. If you are connected with 3G, please check your signal strength.

4) I am having problem installing the program.

Asee software is tested and fully functional; however, latest phone with newer firmware may encounter problem with installation. Please call our technical support hotline 800-305-8889 to check if your phone is compatible. If you are having installation problem, you may call your phone manufacturer support for help.

5) I can see the images, but I do not have PTZ control.

PTZ demo available upon requested. We do not open this function to the public.

6) Where is my snapshot pictures?

Your snapshot is automatically saved in your photo album.

For more information or support, please feel free to give us a call at 800-305-8889 or send us an email support@bolideco.com.
